

My family listens to K-LOVE on several translator stations around the Willamette valley area. We like to hear the high quality programming as we travel, without commercial interruption, and with continuity of programming regardless of geographic location. This community will lose access to high caliber educational, news, commentary, and music programs if LPFM is given priority over FM translator service. We appreciate the format of K-LOVE in part because it is a non-commercial station. We are personally and financially committed to the continuation of this station.

Thank you for the opportunity to comment. My family urges you to protect and maintain the policies necessary to keep K-LOVE on the air on FM translators accross the nation.
